- All of our cleaning products are low VOC's. Use Ionizer and Envirox cleaners for bathrooms, walls, desks.
- Trash bags are compostable.
- Energy Star top ratings in two of three high schools
- Switched out over 25,000 lightbulbs to higher efficiency, low kWh bulbs.
- Diamond cut Terrazzo floors; limits floor chemicals.
- District and School Green Teams raise environmental awareness. They even hosted a Water Walk, which raised enough money to build a fresh water well in Swaziland, Africa.

## S.T.E.A.M. Academy Partnership with Camden County College

- Admission requirement.
- State-of-the-art science labs and engineering classrooms.
- Can earn up to 24 credits while still in high school at Camden County College.
- Students design projects relative to a STEAM focus that solves a real-world problem and then presents that design solution, innovation, creation or idea as a Capstone project to CCC & BHPRSD faculty, parents and peers.
- 2017 partnership with CCC to allow students to earn certificates towards career while in our High Schools.

## FUTURE INVESTMENTS

- Starting Career Exploration Program.
- 1:1 laptop initiative for staff and students with Wi-Fi upgrades.
- Lacrosse as a competitive athletic program.
- Intramural program for students with special needs
- Challenge Day programming to improve school climate
- Freshman Seminar requirement – semester class
- Facility upgrades that include greater school security, Highland stadium bleachers, new Triton lockers, Highland roof, new parking surfaces, and outside student spaces.

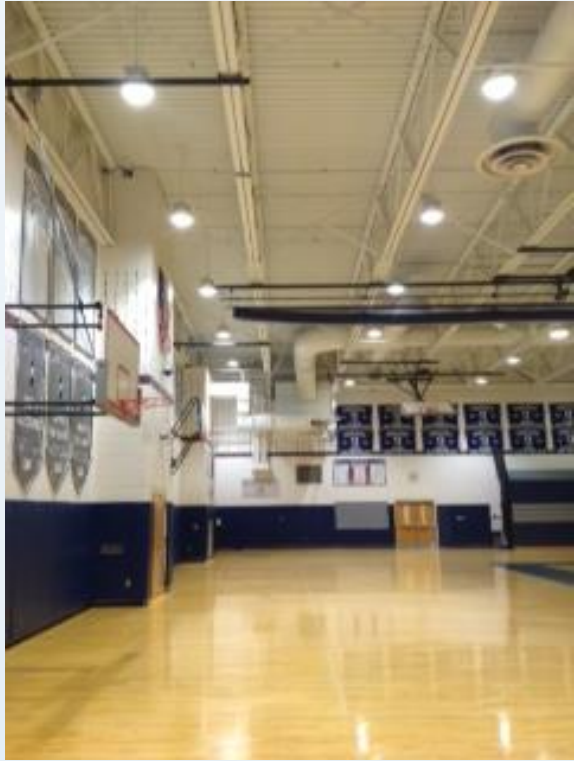

# DOMESTIC VIOLENCE AWARENESS & PREVENTION

Joined the Camden County Prosecutor's Office, the Mayor's Office & the Gloucester Township Police to raise awareness for victims of domestic abuse. We have had two former students murdered in the last three years. To honor those students, we hold a 5K run to offer scholarships in their names.

# Talented Facilities Maintenance Staff

Installation of LED lights, done in-house, to make our basketball courts like college placing surfaces.

Rain Water collection tank used to water Organic Garden powered by a solar-panel.
