

**ATTENTION STUDENTS: We encourage you to bring your own ear buds.**

## Black Horse Pike Regional School District - 2016 PARCC Testing Block Schedule

Each student enrolled in an ELA09, ELA10, ELA11, Algebra 1, Geometry, or Algebra 2 course will sit for three testing units of ELA and/or three testing units of Mathematics. It will take 9 testing days to complete testing (not including make-ups). To minimize the impact on instructional time, we have developed a modified block schedule on PARCC days to accommodate the State's maximum of two testing units per student per day. To avoid confusion with our regular rotation letter days, we have created two new letter days; E and F. On E days, only periods 1, 2, 5, and 6 will meet. On F days, only periods 3, 4, 7, and 8 will meet. In the morning or afternoon wheel, only two bell periods meet per day. In either wheel, you will see all four of your periods over any two day period. However, you will note that on Days 3, 4, 7 and 8 of the testing window, we have "flipped" the two bell periods in order to share the time as fairly as possible. To help students (seniors who can come in late or leave early and science students with lab elective days), we have included the "letter" day they should follow from our normal schedule to help them know where to be at all times.

E-Day - Periods 1, 2, 5, & 6 F-Day - Periods 3, 4, 7, & 8 E* Day - Periods 2, 1, 6, and 5		Juniors			Sophomores			Freshmen
