Re: Donation from HYSC
Date: March 18, 2015

I had a meeting with Highland Youth Soccer Club President Greg Wiesome and Vice President Dan Clancy about two weeks ago. They recognize our cooperation with HYSC using our fields and would like to help repair and improve our current conditions.

They would like to donate material and labor (Approximately \$1,000 value) to re-sod our goal mouths as they usually get chewed up and damaged the most during our season. I would like them to work with our maintenance staff during this process so everyone is on the same page. Attached you will find the letter form Dan Clancy requesting the donation of material and labor.
