

USE OF PHYSICAL RESTRAINT AND SECLUSION TECHNIQUES FOR STUDENTS WITH DISABILITIES

5561 USE OF PHYSICAL RESTRAINT

The Board of Education strives to provide a safe, caring atmosphere that supports all learners in the least restrictive environment. On occasion, during an emergency, a situation may arise making it necessary to temporarily restrain a pupil. An emergency is defined as a situation in which the pupil's behavior poses a threat of imminent, serious physical harm to the pupil or others or imminent, serious property destruction.

In accordance with N.J.S.A. 18A:6-1, no person employed or engaged in school or educational instruction, whether public or private, shall inflict or cause to be inflicted corporal punishment upon a pupil attending such school or institution. However, any such person may, within the scope of his/her employment, use and apply such amounts of force as is reasonable and necessary: to quell a disturbance, threatening physical injury to others; to obtain possession of weapons or other dangerous objects upon the person or within the control of a pupil, for the purpose of self-defense; and for the protection of persons or property. Any such acts, as above, shall not be construed to constitute corporal punishment within the meaning and intent of N.J.S.A. 18A:6-1.

"Physical restraint" means holding a pupil or otherwise restricting his/her movements. Physical restraint shall include the use of specific, planned techniques and shall only be used with reasonable limitations by school staff members who shall receive training in the use of physical restraint. Classroom and security interventions should be implemented, when possible, prior to the use of any physical restraint. The use of physical restraint shall be limited to only those circumstances and situations where other interventions are not possible or have been unsuccessful.

A pupil shall be released from physical restraint immediately upon a determination by the school staff member administering the restraint that the pupil is no longer in imminent danger of causing harm to him/herself, others, or imminent property destruction. The Principal or designee will notify the parent/legal guardian in the event an emergency existed and physical restraint was used on their child. The pupil shall be examined by the school nurse after any physical restraint.

2. A student is not restrained in the prone position, unless the student's primary care physician authorizes, in writing, the use of this restraint technique;
3. Staff members who are involved in the restraint of a student receive training in safe techniques for physical restraint from an entity determined by the Board of Education to be qualified to provide such training, and that the training is updated at least annually;
4. The parent of a student is immediately notified when physical restraint is used on the student. This notification may be by telephone or electronic communication. Each incident in which physical restraint is used is carefully and continuously visually monitored to ensure it was used in accordance with established procedures set forth in Policy and Regulation 5561 – Use of Physical Restraint and Seclusion Techniques for Students with Disabilities, developed in conjunction with the entity that trains staff in safe techniques for physical restraint, in order to protect the safety of the child and others; and
6. Each incident in which physical restraint is used is documented in writing in sufficient detail to enable staff to use this information to develop or improve the behavior intervention plan at the next individualized education plan meeting.

A school district, an educational services commission, and an APSSD shall attempt to minimize the use of physical restraints through inclusion of positive behavior supports in the student's behavior intervention plans developed by the individualized education plan team.

A school district, an educational services commission, or an APSSD that utilizes seclusion techniques on students with disabilities shall ensure that:

A school district, an educational services commission, and an APSSD shall attempt to minimize the use of seclusion techniques through inclusion of positive behavior supports in the student's behavior intervention plans developed by the individualized education plan team.

The New Jersey Department of Education shall establish guidelines for school districts, educational services commissions, and APSSDs to ensure a review process is in place to examine the use of physical restraints or seclusion techniques in emergency situations, and for the repeated use of these methods for an individual child, within the same classroom, or by a single individual. The review process shall include educational, clinical, and administrative personnel. Pursuant to the review process the student's individualized education plan team may, as deemed appropriate, determine to revise the behavior intervention plan or classroom supports, and a school district, educational services commission, or APSSD may determine to revise a staff member's professional development plan pursuant to N.J.S.A. 18A:46-13.7.
