- j. If the written report of the medical examination verifies that alcohol or other drugs do not interfere with the student's physical and mental ability to perform in school, the student will be immediately returned to school.
- k. If there is a positive determination from the medical examination, indicating the student's alcohol or other drug use interferes with his or her physical or mental ability to perform in school:
- (1) The student will be returned as soon as possible to the care of the parent;
