

Summary:

Present: Kevin Bucceroni, Bill Murray, Dawn Leary, Michael Shuster, Tom Storer & Joe Newsham

- Members requested to see the new concession stand picnic area and new "Home of the Tartans" sign. All 3 were impressed with the boulders, landscape & lighted sign.
- Request by member to see gymnasium & boys locker room. Questions were asked about the age of the hardwood floor, plans if any to replace floor. I explained how the floor was core drilled to gauge the depth and explained how we are a few years away from it being an issue. I answered all questions to everyone's satisfaction.
- M. Shuster asked to go to LMC. Members were shown the new cafe area being built. M. Murray noticed a stain that had been on the carpet for 5 years that can't be removed. He also thought that it was time to replace the carpet. Mike also shared his plan of installing LED lighting in the LMC. All members would like to see this happen.
- Member request to see 2nd floor. Members asked about the upcoming abatement and AC project. I explained that it is in the planning stage at this time. Mr. Murray opened a custodial closet and asked why there is not vinyl floor installed. I explained that it was abated recently and that it will be re-tiled after the rest of the floor is abated.
- Showed members the new LED lighting and white ceiling on south stairwell. They were all impressed with the brightness.
