

Facilities Committee Meeting

Timber Creek High School – Principal's conference room

Attending: Kevin Bucceroni, Jay McMullin, Bill Murray, Jean Grubb, Joe Newsham and John Gallagher

October 2, 2014 @ 5:45 pm

1. Projects Update - the committee reviewed the list dated November 13, 2013, updated October 2, 2014. The list is adjusted to reflect the SDA grant money. The ones that are approved to receive these funds have been moved up so that we can take advantage of these grants. If time completed within the timeline, the grant money will be forfeited. Bill Murray stated that in addition to these projects, we were looking to go into a shared services agreement with Bellmawr for various skilled labor work. Runnemede may also want a similar agreement.
After a discussion of these projects, we proceeded to the walk through.
2. Walk thru at Timber Creek – The committee walked through the various areas of the building, highlighting the new gym lights, the diamond cut clean floor in the cafeteria, and the newly painted auditorium ceiling.
