- a. For example, if an employee served only thirty-five weeks in a given school year and that employee would have been entitled to ten days' vacation if the person worked an entire year, that person can be granted six (60% x 10 days) vacation for that year. Normal rules of rounding shall apply to all calculations.
 - b. No vacation leave shall be granted to a person who serves less than eleven weeks during a school year **unless negotiated with the Superintendent upon initial hire.**
 - c. Employees whose services terminate shortly after the close of the school year (June 30) shall be entitled to vacation leave earned during the prior school year or an equivalent in salary. The same would apply to a person leaving a full-year position to take a ten-month position within the district.
4. The Board reserves the rights to close the plant(s) for a two week period during which all vacation leave must be taken. When employees have not earned or do not have sufficient vacation leave to cover the closing period, the uncovered time shall be without pay. When the plant does not close, no employee shall be required to take a vacation without pay.
 5. Employees who have not earned a full vacation period may take additional time without pay upon prior request and approval of the Superintendent.
 6. If the Superintendent or the Board of Education require(s) a support staff member to work during a planned vacation period, the Superintendent

may ask the Board of Education to adopt a resolution to permit that staff member to carry only those days into the next school year to be used during that calendar year. If the days cannot be used during that school year, the Superintendent may ask the Board of Education to adopt a resolution to pay that employee for any of those days which remain and removed them from the record. Such payment will be at a per diem rate equal to 1/240th of that employee's base salary **for maintenance employees and 1/220th for 12-month employees** (excluding the service increment for which payment already had been received) earned during the school year the vacation days were awarded. Only in very unusual circumstances will these resolutions be approved by the Board.

7. Vacation privileges shall not be affected by extended absence which is covered by approved accumulated sick leave. When absence exceeds accumulated sick leave that absence shall not be considered time on the job and vacation shall not be earned during that period. The chart shown in 3. of this policy shall be used to determine the vacation leave earned during that school year.
8. Vacation periods may not exceed two weeks at any one time except where special requests have been submitted and approved in advance by the Superintendent. Support staff employees, with the exception of maintenance and custodial staff, must use all but one week (5 days) of vacation time during the summer. Maintenance and custodial staff may request to take more than 5 days of vacation time during the school year. ~~In order to do so, maintenance and custodial staff must submit a tentative vacation schedule as of May 31st of the preceding year to their immediate supervisor for approval.~~ All vacation requests are subject to approval by the **Supervisor**, Building Principal, and Superintendent.
