On the left side of each of our school's websites there is a link to CollegeBoard's SAT practice problem of the day. Students can download the App.

In December students receive their PSAT scores along with the test booklet and answers that can be used for review.

Monitored Self Paced

This is an online self paced SAT program offered to students and paid for by the district. Students are required to do 90 minutes of online SAT prep a week on their own to maintain their online seat in this class. These sessions are typically 10 - 16 weeks long. Students choose to complete the review in Math or Language Arts based on their area of need. Students must meet the 90 minute requirement each week in order to remain in the program.
