

March Nominees

Baseball: Mike Clair: Sophomore

Mike has hit the ball extremely well all spring, he is a good team player and hustles during practices. On defense he is our starting left fielder and I look forward to seeing him grow as a player.

Golf: Isaiah Garcia: Junior

Isaiah has gotten off to a terrific start leading the Triton Golf Program with a 44 low score for the early part of the season. Whether on the wrestling mat, Golf course, or the classroom Isiaiah has been a consistent leader at Triton.

Boys Lacrosse: Jimmy Negri: Sophomore

Jimmy has taken on a new role this season as our FOGO, which means that every possession starts with him. Jimmy has also been a bright spot both on offense and defense, making him a truly well-rounded player. Offensively, he is not afraid to dodge and create his own shots. Defensively, he is able to lock down his man and create turnovers. We look forward to him being a major contributor this year.

Girls' Lacrosse: Skylar Walker: Senior

Skylar is an attacker who has always been a very unselfish player. As a senior this year, she has taken on a leadership role, helping out new players, and always partnering up with players she did not know, so she could get to know her teammates. Her dedication to practicing and growing as a player is a role model for the younger, less experienced girls.

Softball: Alyssa Cepero: Senior

Alyssa is a natural leader. She leads by example. She is always working hard during practice, stays focused, and has a team mentality. Alyssa worked hard in the off season to improve her speed and it is really showing on the bases! Her energy is contagious and I know I can always go to her to hype up the team. We can't wait to see all that she accomplishes this season.

Boys Tennis: Tirth Patel: Freshman

Tirth has single-handedly rescued the tennis program, here at Triton. His commitment to both improving his own game, as well as the team overall is outstanding. He brings a positive and outgoing attitude that has been infectious, spreading to all the members of the team. Additionally, he has a competitive spirit and always works hard to be his best, while supporting and encouraging the other members of the team.

Boys Track: Sean Lemon: Senior

Sean is a fourth year participant in spring track, Sean leads by example. He simply the hardest working student this year. Sean specializes in the long jump, triple jump and sprinting events. Sean is consistently jumping over 20' and improving each week. He is also a part of two relays that are very close to breaking records here at Triton. I am proud of the leader that Sean has become this year.

Girls Track: Victoria Whitman: Freshman

Tori is the very definition of hard working. She shows up every day to practice enthusiastically and ready to go. She is very encouraging of her teammates and is always pushing herself to be the best that she can be. In her first Varsity race for the 800 meters, she ran a new personal record of 3:23 which is over 20 seconds faster than her previous time from the winter! We are very proud of Tori and are excited to see her continue to improve as the season goes on.

Boys Volleyball: Ethan Fusco: Sophomore

Ethan is a first-time varsity player for our team this season, and he inherits the setter position which is arguably the most difficult and critical position on the court. Being an excellent team player, Ethan already has done double the work in preseason scrimmages due to an injury to our JV setter. Ethan has already led the team with 10 assists and 3 aces in the opener against Highland. We look forward to Ethan being a leader for the boys volleyball program for years to come.
