

A new SAT[®], a better way to practice

The PSAT/NMSQT[®] will change in October 2015 followed by a new SAT in March 2016. Whether your 2017 graduates and younger will prepare for the new SAT, the current SAT, the ACT[®], or all three—Kaplan’s practice tests can help them understand what to expect.

FULL-LENGTH PRACTICE TESTS

The redesigned PSAT and SAT are significantly different from the current versions of the exams. Students will benefit from experiencing the structure and timing of the new tests prior to entering their actual Test Day. Results from each test provide students with a comprehensive analysis of their performance on the test, detailing their individual strengths and weaknesses. Your school will receive a Score Report showing how your students performed. Tests can be proctored by Kaplan or a member of your team.
