APPROVED: _____ Yes _____ No By: _____ Date: _____

ROBERT V. SIMPSON, Maj, USAF(Ret), Senior Aerospace Science Instructor, AFJROTC Unit NJ-20182

AEROSPACE SCIENCE (Air Force Junior ROTC) DEPARTMENT

Air Force Junior Reserve Officer Training Corps (AFJROTC) is a series of three to four five-credit courses offered to all high school students. This course can fulfill either the 21st century skills or Visual Performing Arts requirement for the state of New Jersey.

Your child has expressed interest in the JROTC program at Highland High School. A request for entry into the program has been put into the system. However, if accepted into the program, it would require that your student transfer full time to Highland High School for each year enrolled in the program. Keep in mind that there would be no cost to your or your family, and transportation will be provided. Please sign below and have it returned to your child's counselor in order to be considered. If the form is not returned by **March 11, 2022**, your child's request for the course will be dropped from their schedule. If you have any questions, please contact your child's counselor.

I, _____, give permission for my child to request the JROTC program at Highland, and if accepted into the program, I allow my child to be transferred full time to Highland High School. I understand that this transfer to Highland is contingent on my child remaining in the program. If my child drops the course, they will be transferred back to their home school.

Name of the Student (**print**): _____

Your name (Parent or Guardian): _____

Your Signature: _____ Date: _____

School **SCHEDULED** for next year: Highland Triton Timber Creek
