

DESIGN & TECH I

Design & Tech 1 is the first level Technology Education course available to all students where you will plan, build, and test prototypes for fun, hands-on, and engaging design challenges. This class is equal parts design and building, which means that you spend just as much time planning, sketching and designing on the computer as you do building your designs in the lab.

SKETCHING TECHNIQUES / AUTOCAD AND ONSHAPE /
ORTHOGRAPHIC AND ISOMETRIC DRAWINGS / 3D
PRINTING / MACHINE AND TOOL SAFETY / TOOLBOX
MANUFACTURING PROJECT / BALSA BRIDGES / BOAT
HULL DESIGN / EGG CAR CRASH / WATER ROCKETS

For more information, see your counselor or stop by one of the technology classrooms during Tartan Time (F126 or D105)
