

Greetings, staff and educators!

I could not be more grateful to partner with community leaders and game-changers such as yourselves. Please take a few moments to familiarize yourself with the commonly asked Q&A regarding BHPRSD Mentoring Program.

This program focuses on high school students, providing mentors and resources to facilitate personal and professional growth. We establish relationships with students, administration, staff, the Success Coaches, and the counseling department. Our services are catered to all student- From the high-achieving students, the middle of the pack, and to those that are most at-risk students. We impact critical situations while maintaining a positive rapport with students. Notably, we have partnered with student and family groups and organizations, such as Operation Me, the African American Culture Club, Home and School Councils, and the Peer Mentoring Program, as well as supporting after-school events and extracurricular activities, including community literacy events and working with sports teams.

WHAT TO EXPECT:

As the program approaches its third year, we must nurture our mission and create a larger impact on each school. Every school will be provided more support weekly to alleviate issues that arise. Each mentor/mentee will have a safe and comfortable workspace to complete the mentoring curricula. Students will receive one journal and a folder that will include evaluations, worksheets, and notes. Additionally, monthly check-ins with mentors, counselors, and administration will be held to assess progress and changes to be made.

Thank you for your time, and please do not hesitate to contact me with questions or concerns. I can be reached at Thines@bhprsd.org.

Best,
Tyler Hines
